

Hiroshima Arm chair in walnut – with gravity in style and elegance

The Hiroshima Arm chair will be available in a new walnut material from this fall. We have been receiving many requests about making this chair in walnut. The beautiful and clear wood grains of the walnut together with the exquisite design of the Hiroshima created an arm chair that has certain gravity in style and elegance, where you would want to rest your body deeply onto.

New wood materials and different finishes have gradually been added since the launch of the chair in 2008, and now there will be a total of 8 different options available for the Hiroshima Arm chair. We hope that you will be able to experience the comfort of the chair and the fascination of walnut which our design and technology was able to draw out by determining the wood's nature.

Hiroshima Arm chair in Walnut

Material: Walnut, Urethane resin finish

*Other 7 options: Beech (4 paint finishes) and Oak (3 paint finishes)

*Walnut option will only be available for the Hiroshima Arm chair (wooden seat)
and Arm chair (cushioned).
