

[An Announcement from Maruni Wood Industry / Akira Minagawa Collection for Kvadrat]

## Akira Minagawa's New Collection for Kvadrat Will Be Available for Maruni Collection

All Photography Yoneo Kawabe

Maruni Wood Industry will apply new textiles designed for Kvadrat by Japanese designer Akira Minagawa. The new textile collection was released during the Salone Internazionale del Mobile 2016, and received exceptional reviews.

The Akira Minagawa collection for Kvadrat is characterized by refined patterns, detailed embroidery and sophisticated nuances, and Maruni will apply two upholstery textiles, Crystal Field and Forest Nap, providing a new interpretation to the Maruni Collection.

Please enjoy the charming collaboration between Maruni Wood Industry's crafted furniture and the elegant textiles.

Maruni Collection available with Akira Minagawa's collection:

Naoto Fukasawa Design	Hiroshima, Roundish
Jasper Morrison Design	Lightwood, Bruno

Roundish Three Seater Sofa  
Crystal Field #6927 purple 773

- Crystal Field

53% cotton, 38% wool, 9% nylon

*Crystal Field* is a highly structured, dense épinglé upholstery textile. It is reminiscent of looking at a patchwork of fields from above: as you get closer to it, patterns within patterns are revealed, showing intriguing depths reminiscent of crystals.

The design combines geometric shapes constructed from dots, which break down into different patterns. These are created by using looped yarns that, through combining different colors, create the illusion of stitching.

- Forest Nap

95% wool, 5% nylon

Woollen *Forest Nap* is a simple upholstery textile. Constructed with a plain weave, it can be described as the base textile in the Akira Minagawa collection and is particularly suited to cover large surfaces.

*Forest Nap* comes in an array of colors, such as understated natural hues.
