## **Roundish Arm Chair (Cushioned)/ Naoto Fukasawa**

A thin cushion for the seat has been added to this Roundish Arm Chair, characteristic for the feeling it provides of being comfortably ensconced by the construction that resembles a sash wrapping perfectly around your bottom. The cushion further increases this feeling of snug comfort.

## **Wide-Type HIROSHIMA Sofa/ Naoto Fukasawa**

A chaise longue has been added to the HIROSHIMA Sofa line to provide an item that can meld perfectly with a wide variety of lifestyle scenarios.

## **MALTA Dining Table/ Naoto Fukasawa**

This 6.4m solid wood table is a true masterpiece. It beautifully embodies Maruni's smooth-surface finishing techniques. It can be used in cafes, restaurants, and meeting halls, or even as your own personal space you can use however you want. It is also perfect for hotel lounges and bars.

## **Fugu Chair / Jasper Morrison**

The Fugu dining chair extends the family from lounge chairs to the table. The goal has been the same, to achieve a level of comfort with solid wood seat and back so that no upholstery is needed, maintaining the pure lines and the expression of a single material purposefully arranged.
