MALTA / TABLE [wood leg]

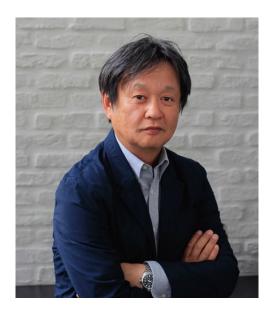

This simple table perfectly expresses the warmth, feel and texture of the wood. Your appreciation of this table will surely increase as you use it thanks to the natural appearance of its unique tabletop, which combines a variety of wooden panels characterized by different wood grains. The form of the table, due to an innovative balancing of the tabletop and legs, allows it to be harmoniously combined with any types of chairs. We have created model variations that allow you to not only select the width but the depth as well. * As solid wood with knots is used for the tabletop, there may be individual differences in the actual appearance of colors, wood grains and knots.

maruni MALTA / TABLE [wood leg]

DESIGN

NAOTO FUKASAWA, 2013

"A table with a pure simplicity about it, it is made of oil-coated solid oak. The thick, round pillar legs give it a stable feel. The table will become more charming as time passes and goes perfectly with any type of chairs."

MATERIAL & FINISH

oak

C-0 NI-0 clear whitish

walnut

C-0 WB-1 clear light brown

WARRANTY

We will guarantee the product for two years from the date of delivery of the product. For the content of quality assurance please see the "Warranty Policy" included in the product.

TECHNICAL INFORMATION

The wood used in this product is obtained from oak or walnut trees in North America that are managed and felled in a planned manner. If required, we can manufacture furniture with the FSC $\!^{\mathbb{R}}$ or PEFC $\!^{\mathsf{TM}}$ certification. In that case, however, longer lead-time will be required to procure the wood.

VOC

The coating and glue used here reduce VOC emissions in manufacturing processes and finished products. These materials have been tested for formaldehyde emissions in accordance with the ISO12460 standard and confirmed not to exceed the 0.4 mg/l emission level.

PURPOSE OF USE

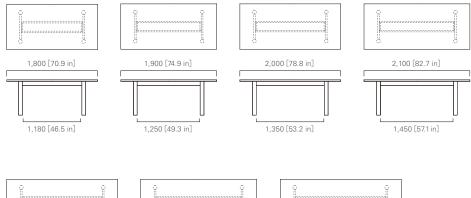

Indoor

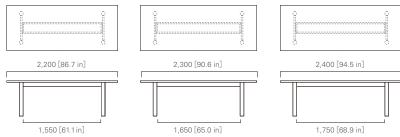

Maruni Wood Industry has established various test standards and designs for comfortable use, however, use of products beyond the expected scope can lead to cracking and snapping of wood parts. There are several things you should keep in mind in order to properly preserve the product and continue using it for a long time. Therefore, be sure to read the instruction manual beforehand.
