

SHOTO / COFFEE TABLE

DESIGN

CECILIE MANZ , 2024 -

"The Shoto table collection consists of two types of tables: low, fully wooden tables and lighter, casual tables with a metal base. In common all tables have the oval shape and the crafted tray-like detail of the wooden tabletop and the strong wish to create an understated design language. The precise detailing is crucial, smooth transitions from soft to straight, framing the architecture of the table, creating a tray-like surface. The name of the collection refers to the 'archipelago' one often creates in the living area; islands of furniture that works together in creating a nice atmosphere. A small version of Shoto called 'Tray Table' works as a little helper in the room; holding your handbag off the floor, a low table for your coffee cup, or anywhere where a small, elevated surface is needed."

TECHNICAL INFORMATION

WOOD

The wood used in this product is obtained from beech trees in Europe and ash, oak or walnut trees in North America that are managed and felled in a planned manner. If required, we can manufacture furniture with the FSC® or PEFC™ certification. In that case, however, a longer lead-time will be required to procure the wood.

TABLETOP

The tabletop is 22 mm thick and made from solid wood.

VOC

The coating and glue used here reduce VOC emissions in manufacturing processes and finished products. These materials have been tested for formaldehyde emissions in accordance with the ISO12460 standard and confirmed not to exceed the 0.4 mg/l emission level.

PURPOSE OF USE

Indoor

Maruni Wood Industry has established various test standards and designs for comfortable use. However, the use of products beyond the expected scope can lead to cracking and snapping of wood parts. There are several things you should keep in mind in order to properly preserve the product and continue using it for a long time. Therefore, be sure to read the instruction manual beforehand.
