JASPER MORRISON, 2024-

A new wooden frame sofa has been added to Lightwood series. The sleek and lightweight wooden frame, the common language of the series, and the cushioned comfort will enrich your daily life. Furthermore, the wooden frame design allows for easy disassembly, minimizing energy consumption during transportation, making this sofa environmentally friendly.

WARRANTY

We will guarantee the product for two years from the date of delivery of the product. For the content of quality assurance please see the "Warranty Policy" included in the product.

TECHNICAL INFORMATION

WOOD

The wood used in this product is obtained from maple, ash or oak trees in North America that are managed and felled in a planned manner. If required, we can manufacture furniture with the FSC® or PEFC™ certification. In that case, however, a longer lead-time will be required to procure the wood.

UPHOLSTELY

back cushion: feather
seat cushion: urethane foam
seat base: elastic webbing

VOC

The coating and glue used here reduce VOC emissions in manufacturing processes and finished products. These materials have been tested for formaldehyde emissions in accordance with the ISO12460 standard and confirmed not to exceed the 0.4 mg/l emission level.

FLAME RESISTANCE

The foam and materials of the product can be customized to meet the requirements of BS5852 Source 5 with a special order.

PURPOSE OF USE

IndoorMaruniWood Industry has established various test standards and designs for comfortable use. However, the use of products beyond the expected scope can lead to cracking and snapping of wood parts. There are several things you should keep in mind in order to properly preserve the product and continue using it for a long time. Therefore, be sure to read the instruction manual beforehand.
