

MEGURO / LOUNGE CHAIR · OTTOMAN

DESIGN

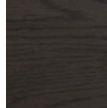

NAOTO FUKASAWA ,2020-

This chair features a soft, generously contoured backrest and seat, complemented by arms sculpted in an organic shape that invites a gentle touch. Brought to life by capturing the essence of handcrafted aesthetics and translating it into a technique for mass production, this piece stands as a true masterpiece—a classical modern "my chair." The lounge chair and ottoman set includes design elements that invite the body and enhance the space with a captivating ambiance.

TEST

ISO7173-L4 / Determination of strength and durability
ISO7174 / Determination of stability

TECHNICAL INFORMATION

WOOD

The wood used in this product is obtained from oak or walnut trees in North America that are managed and felled in a planned manner. If required, we can manufacture furniture with the FSC® or PEFC™ certification. In that case, however, a longer lead-time will be required to procure the wood.

PLYWOOD

The backrest and seat are made from molded plywood. The core of each part consists of beech veneer layers.

UPHOLSTELY

backrest: urethane foam, rubber sponge
seat: urethane foam

VOC

The coating, glue and plywood used here reduce VOC emissions in manufacturing processes and finished products. These materials have been tested for formaldehyde emissions in accordance with the ISO12460 standard and confirmed not to exceed the 0.4 mg/l emission level.

FLAME RESISTANCE

The foam and materials of the product can be customized to meet the requirements of BS5852 Source 5 with a special order.

PURPOSE OF USE

Indoor

Maruni Wood Industry has established various test standards and designs for comfortable use. However, the use of products beyond the expected scope can lead to cracking and snapping of wood parts. There are several things you should keep in mind in order to properly preserve the product and continue using it for a long time. Therefore, be sure to read the instruction manual beforehand.
